BRIDGE RENEWAL PROJECT ELLA STREET ARTARMON

Changes to Road Closure Details

As part of the major periodical maintenance program for the North Shore Railway Line, the existing road bridge passing over the railway line at Ella Street, Artarmon is due to be replaced.

As detailed in previous community notifications, closure of Ella Street to both vehicle and pedestrian traffic will be required.

Previous notifications detailed that Ella Street will be closed in two (2) stages between the 3rd March 2009 until the 26th September 2009.

Due to changes in the construction methodology and program, it has been identified that the need for the closure of Ella Street from the 3rd March 2009 is no longer required. As such, a decision had been made to delay the closure of Ella Street to minimise the impact of the closure on public.

Details of the revised closure date for Ella Street are currently being finalised and will be advised shortly.

Further to the above, it has been established that No Parking areas may be required on the oval side of Station Street and Waters Road during the revised closure dates. Further details of this potential requirement will be issued shortly.

RailCorp and Laing O'Rourke apologises for any inconveniences caused. For more information on the project, please contact the Project Information Line on 1300 858 617.
